**Subject:** Gold King Mine Spill

Hi, My name is Shane Ormsby,

I'm sending this email regarding the Gold King Mine spill in Colorado.

We currently supply an organic based polymer to Papua New Guinea to treat mine tailings with heavy metals present (Arsenic / Mercury), similar to the water the was accidentally released from the mine.

I believe the same product could be used to treat the source water to reduce contamination.

My business partner & I will be in Chicago (our U.S. Based company) 17/8/2015 - 8//8/2015.  
We can organise a sample for testing & presentation.

Please let me know who the best contact person would be.

Thanks for you time & look forward to hearing from you.

Regards

SHANE ORMSBY

Director
